

For the past 24 years, Artistic Director Vladimir Issaev's passion and commitment to bringing the best ballet productions, has contributed to the success of Arts Ballet Theatre of Florida developing it as a solid organization where company dancers have also devoted their time and creativity. As a result, the South Florida area has a stunning ballet company for all its residents to enjoy. Since its inception in 1997, Arts Ballet produces a full season of excellent works of classical Russian-style ballets, New-Classical ballets and Contemporary dance works, making professional ballet performances accessible to broad audiences including students, the elderly and to the diverse residents and visitors of our area. The company dancers are awarded international artists who have received the greatest accolades due to the high quality and technique they bring to the stage. They have made our company a sundry organization that truly represents the diversity of South Florida.

Bringing the Arts en Pointes to live is a dream come true. We were scheduled to open this exhibit in 2020, however, the worldly events have marked a "before and after". We are thankful to every artist for their talent, their gift, their art pieces, and their patience. We are also thankful to our patrons and followers who have been waiting for this moment and have been supporting us all this time. We also thank our dancers, past and present for their artistry and passion.

Vladimik Issaev
Artistic Director

Ruby Romero - Issaev Executive Director

Arts Ballet Theatre of Florida Fundraiser
The arts enrich our lives with creativity and beauty.

Art, in all its forms, is born when an artist conceives a piece or produces a stimulating experience. While dancers use their own body movements and facial expressions as a "medium", visual arts use materials such as paint, pencil, clay, metal, wood, or found objects to create their works of art.

Throughout history, artists from different disciplines have collaborated to produce works that enrich our world. That was the inspiration of Arts en Pointes, a project originally conceived by Ruby Issaev, Executive Director of Arts Ballet Theatre of Florida. With the ideas of partnering ballet and visual arts, local, national, and international artists were asked to reproduce works using the most significant symbol of classical ballet: a pair of pointe shoes.

Some painted them, others molded them into sculptures, and some of them produced readymade. Each artist created a unique work of art that reflects his or her own individual form of expression. From figurative styles to make conceptual ones, from oil painting to photography, from two dimensional to three dimensional pieces, from romantic styles to poignant interpretations, the resulting works reflect individual interpretations of the world of classical ballet.

We are grateful to the artists who participated in this project. Their unique works of art have been generously donated to be sold on a silent auction to benefit Arts Ballet Theatre of Florida. This wonderful collection of ballet-inspired art pieces, which will be displayed during the exhibition that will take place prior to the auction, is a testimony of how enriching the collaboration within the arts can be, and of the belief that together we can continue to add beauty to this world.
